

SUNNY VERMA

Hisar, Haryana | +91 9817245565 | sunverma192@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Python Developer and Data Analyst with experience in data analysis, machine learning, and automation. Skilled in Python, SQL, Pandas, NumPy, Power BI, Excel, Flask, and Django. Strong in data cleaning, EDA, visualization, predictive modeling, and building scalable Python applications. Looking for a full-time role to apply technical and analytical skills to solve business problems.

TECHNICAL SKILLS

Languages: Python, SQL, R, C++, HTML, React, JS

Analytics: Data Analysis, Data Visualization, Machine Learning, Statistical Modeling, DBMS

Tools: Power BI, Excel (Pivot Tables, VLOOKUP), WEKA, Google Colab, Android Studio, VS Code

Frameworks: Django, ReactJS, **Angular**, NodeJS, Tailwind CSS

Soft Skills: Problem-Solving, Attention to Detail, Communication, Teamwork, Entrepreneurial Mindset

WORK EXPERIENCE

Software Developer | Tetarnetics Pvt Ltd, Mumbai

Aug 2026 – Present

- Develop and maintain responsive, component-based front-end modules using Angular, integrated with backend REST APIs.
- Build and enhance server-side features and RESTful APIs using Node.js, with database integration to support scalable, maintainable web applications.
- Collaborate with cross-functional teams in an Agile environment, participating in code reviews, debugging, and testing to deliver features on schedule.

Power BI Developer Intern | Inospire Software, Gurgaon

May 2025 – Sep 2025

- Designed and deployed interactive Power BI dashboards to monitor key business KPIs, reducing manual reporting time by an estimated 40%.
- Wrote optimized DAX measures and calculated columns to support real-time data analysis across multiple data sources.
- Collaborated with stakeholders to gather reporting requirements and translated them into intuitive, drill-through visual reports.

Data Analyst Intern | Akash Network Logistics, Rudrapur

Jul 2024 – Sep 2024

- Analyzed logistics and supply chain datasets using Python (Pandas, NumPy) to identify operational bottlenecks and delivery inefficiencies.
- Built data cleaning and transformation pipelines reducing data inconsistencies by approximately 30% across reporting workflows.
- Presented data-driven insights to team leads via visual reports, supporting evidence-based decision-making in daily operations.

Full Stack Python Trainee | Ducat, Gurgaon

Mar 2025 – Sep 2025

- Completed 200+ hours of structured training in full-stack Python development covering Django, REST APIs, and database integration.

PROJECTS

Email Spam Detection System · Python · NLP · Scikit-learn · ML

- Built a high-accuracy ML classifier (Naive Bayes / SVM) to detect spam emails using NLP preprocessing — tokenization, stopword removal, and TF-IDF vectorization.
- Achieved 95%+ classification accuracy on the test set; deployed an interactive interface enabling real-time email classification.
- Reduced user exposure to unwanted messages, demonstrating a practical productivity-focused data science application.

Spotify Top 100 Songs Analysis · Python · Pandas · Matplotlib · EDA

- Conducted exploratory data analysis on Spotify's Top 100 Songs dataset to surface correlations between audio features (tempo, energy, valence) and track popularity.
- Produced data visualizations (heatmaps, scatter plots, bar charts) that revealed actionable patterns in streaming trends across genres.

Plant Disease Detection System · Python · Django · Deep Learning · CNN

- Developed a Django web app integrated with a trained CNN model to classify plant diseases from leaf images with real-time predictions.
- Designed a farmer-friendly UI for image upload and instant disease diagnosis, supporting early crop treatment and yield protection.

EDUCATION

B.Tech – Computer Science & Engineering (AI/ML Specialization)

Expected 2026

Chaudhary Devi Lal University, Sirsa | CGPA: 8.0 / 10

LICENSES & CERTIFICATIONS

PwC Switzerland – Power BI Job Simulation (Forage, Issued Jan 2025)

Credential ID: xJ374c4sGr6W8pXj6 | Skills: Tableau and Microsoft Power BI

Tata Group – Data Visualisation: Empowering Business with Effective Insights Job Simulation (Forage, Issued Jan 2025)

Credential ID: GGJLXywdExANEm9PB | Skills: Tableau and Data Visualization

ACHIEVEMENTS

- Certified in Robotics, Python Programming, and Cybersecurity
- Participant – MOE India IDE Bootcamp (Startup Ideation & Customer Psychology)
- Attendee – 5-Day Data Science Bootcamp organized by Chaudhary Devi Lal University, Sirsa — covered data wrangling, statistical modeling, machine learning workflows, and data visualization using Python.
